

## FAMILY STYLE MENU

A Family Style Dinner is an interactive dining experience for your guests. Each guest table will be presented with the cuisine, on platters and in serving bowls. Your guests will serve themselves. This style of service will require a larger amount of food in order to cover the unknown popularity of items at each table and some small additional cost for service wares.

Below you will find 2 popular Family Style Menus that will demonstrate the type of dishes that present well for a "Family Style" Reception. We are happy to price these menus or make some other suggestions as soon as we learn about the number of guests and number of tables that are expected.
